22.04.2017

TESKON + SODEX (April 19th - 22nd, 2017 - IZMIR)

Teskon + SODEX brought together the HVAC-R Industry in Izmir

Hosting the one of the most important meetings of the HVAC-R industry, **Teskon + SODEX** brought together the industry in April 19th - 22nd, 2017 - IZMIR Tepekule Congress and Exhibition Center. Organized by Hannover Messe Sodeks Fuarçılık, the event showcased various product groups such as Heating, Cooling, Air-Conditioning, Pump, Valve, Plumbing, Water Treatment, Geothermal and Solar Power Systems under a single roof and allowed its visitors to discover the innovations in the industry. Teskon+Sodex where 96 companies exhibited their products and services in 1761 m² net area, provided an attractive trade platform during 4 days.

Exhibition and Congress were together!

Concurrently with Teskon+SODEX Exhibition, most important Congress of the industry TESKON-National Installation Engineering Congress was held by MMO (Chamber of Mechanical Engineers) as well. The congress brought together many prominent academicians, architects, engineers, project company officials and professionals in the industry under TESKON+SODEX and gave a great opportunity to them to share notable knowledge. Offering theoretical and applied scientific and technological developments in both sanitary engineering and in other disciplines, TESKON Congress featured "Integrated Performance" this year.

Both the exhibition and the congress attracted considerable attention not only from Izmir but also nearby cities. During 4 days, 6676 professionals visited the fair.

The next meeting of HVAC-R industry, SODEX Ankara, will be hosted by Hannover Messe Sodeks Fuarçılık between **May 10th- 13rd** at ATO International Congress and Exhibition Center.
